31 SERIES SHELVING

CUT SHEET

- Shelving is premium modular wood construction consisting of starter and adder units, allowing flexible shelving runs that are field-modifiable and can be reconfigured
- Frame is 1” square and 18-gauge steel tubing. Bolts added to end and intermediate panels.
- Starter and adder units allow you to create a long run of shelving. Initial starter unit comes with two finished end panels or designer end panels.
- A steel chassis is fitted to the inside of the toe assemby.
- Casters are bolted to the chassis with 1/4”-20 bolts and nylon insert lock nuts and the entire assembly is attached to the end panel.
- Casters are 2” diameter and non-locking.
- Mobile bookcase sits 1/2” off the floor.
